## Projects

\* Source code and additional information can be accessed in my GitHub repositories.

### Billing And Business Management WebApp (Real World Project)

A fully-fledged web app designed for a jewelry business to manage customers, transactions, generate invoices, track bill history, and much more.

Link: [www.mirzajewels.com](http://www.mirzajewels.com)

### Realtime Collaborative Code Editor (React Project)

A real-time code editor where users can create rooms, join rooms using a room ID, leave rooms, sync code in real-time among all clients, and display all connected users. All users in the room will be notified immediately when any user joins or leaves the room in real-time.

### Online Assessment Application

Functionalities include authentication, assessments with a timer, automatic submission on timeout, and an admin panel.

### Realtime Chat Application

A chat application where we can group chat with multiple people online.

## Extra Curricular Activities

- Served as a team leader in a community service program.

Declaration: I hereby solemnly declare that all the above furnished details are true to the best of my knowledge.
